EDUCATION

CUNY - Bernard M. Baruch College, New York, NY *May 2025*
Candidate for Bachelor of BS
Major or Concentration: Computer Science
GPA: 3.85/4.00
Coursework: Introduction to C++, Introduction to Python, Database Management Systems, Principles of Web Design, Discrete Math, Data Structures and Algorithms, Computer Architecture, Combinatorics

SKILLS

Languages: Python, C++, SQL, HTML, CSS, JavaScript, C#
Technologies: MySQL, Next.js, React.js**,** Flutter, Laravel, Node.js,
Tools: Git, GitHub, Postman, Thunder Client, Xcode, Android Studio

RELEVANT EXPERIENCE

The Difference | *Software Engineer Intern* | Remote *Jul 2024 – Aug 2024*
- Optimized state management across multiple data streams in Flutter app with Riverpod, enhancing performance and responsiveness.
- Revamped profile page, resulting in a 30% increase in profile views and a 15% boost in user interactions.
- Engineered data aggregator endpoint with MVC pattern in Laravel, achieving full ownership and maintainability.

Headstarter | *Software Engineer Fellow* | Remote *Jul 2024 – Sep 2024*
- Built and deployed 5 AI projects in 5 weeks using React JS, Next.js, Firebase, Clerk, and Vercel, following agile methodologies with weekly sprints and incorporated CI/CD practices for iterative deployment
- Collaborated with 3 Fellows to build and deploy a SaaS product that generates dynamic flashcards based on any topic using OpenAI, integrated a paywall and custom pricing plans using the Stripe API
- Participate in weekly sessions with engineers from Google, Y Combinator, Stanford, Amazon and venture-backed startups

Banana Republic Factory | *Replenishment Associate* | Brooklyn, NY *Sep 2023 – Present*
- Manage inventory levels by restocking merchandise on the sales floor.
- Monitored stock levels and utilized inventory management tools to maintain optimal product quantities.
- Contributed to merchandise presentation and pricing while aiding customers and collaborating with store associates.

Staples | *Sales Tech Associate*, Brooklyn, NY *Feb 2023 – Aug 2023*
- Collaborated with the Tech team to ensure that the Tech department achieves desired metrics.
- Played an active role in monitoring inventory levels on the sales floor and storage areas.
- Assisted customers in the installation of antivirus software, VPNs, and setting up new computers

PROJECTS

Personal Website: www.leonardocuapio.com (for additional information and projects)

RateMyProfessor AI Chatbot
- Developed an AI-powered chatbot designed to assist students in finding professor ratings, course reviews, and academic advice, enhancing the course selection process.
- Implemented natural language processing (NLP) techniques to enable the chatbot to understand and respond to user queries in real-time, improving user experience.

HobbyCollect: Inventory Management App
- Developed a full-stack hobby collection inventory management app using Next.js and Firebase, enabling users to track and manage their collection hobbies efficiently.
- Designed a user-friendly interface with intuitive navigation and responsive design, improving user engagement and satisfaction.
